# GARANT 13, 20 and 35

## Bowl choppers for supermarkets, canteen kitchens, butchers and laboratories.

The new bowl choppers of the production series GARANT are the right helpers when it comes to producing sausages and pâtés or cutting herbs and vegetables.

A thermometer is also supplied as standard with the GARANT 35 for displaying the sausage meat temperature. The 13 and 20-litres variants can be equipped with a mobile frame and thermometer on request.

The completely removable knife head and the machine housing made of "high-grade stainless steel" are further advantages for lasting value of the machine.
